S. P. DEPOT MUST DO FOR PRESENT, SAYS SPROULE

Head of Southern Pacific Writes Letter in Answer to Dr. Harrower

Excusing the lack of Southern Pacific station facilities here, President William Sproule of that most progressive company has replied to the letter accompanying photographs of the present depot forwarded him by Dr. Henry R. Harrower. Following is the text of Mr. Sproule's communication:

"I have your favor of February 22. Glendale will hereafter be the name of our station formerly known as Tropic. Glendale having grown down to and absorbed the latter. "The growth of the towns in this state is one of the many pleasant things about California, although unfortunately in some cases that growth is not made highly manifest in our business, and I think it must be conceded that the very limited amount of passenger business we do at Glendale does not warrant any considerable structure. Indeed, from the tone of your letter I believe you would be surprised were I to tell you how insignificant that business is. The fact is that our station is adequate for the volume of business it is called upon to do.

"You will realize that at a time when nearly all the earnings of railroads are used up in their current operating expenses, it is unwise for them to put money into buildings for any purposes but the strictly necessary. In carrying out our desire to be progressive, we are compelled to deal rather with the essential things on which the people depend for commercial interchange. I thank you for the photographs and your letter."

Dr. Harrower Makes Reply

To this communication, Dr. Harrower replied from New York on March 8, as follows:

"In a letter from my secretary I learned of your acknowledgment to my recent communication to you accompanying a photograph of the Southern Pacific depot in Glendale, and understand that your excuse for present facilities there is that the amount of passenger traffic will not warrant it.

"Do you not overlook the fact, Mr. Sproule, that it is only within the last month or two and after heroic and year-long effort, that we have got any decent service at Glendale, and since you are responsible for the character of the service you must, therefore, also be responsible for the limited use that is made of them at the present time.

"I regret the delay in acknowledging your letter but I happen to be in New York City for the moment."

CREDIT BUREAU IS MAKING BIG GAINS, LISTS INDICATE

Secretary Frank H. Pilling Tells How Check Is Made of Newcomers Here

Evidence of a rapidly growing membership is seen in the large number of business and professional men attending the Monday noon luncheons of the Glendale Merchants' Credit association. More than fifty enjoyed the round table discussion yesterday.

Frank H. Pilling, secretary, states that all newcomers are invited to come to the association offices in the Chamber of Commerce building and make a statement of their financial ability and references in order that the merchants may know how much credit is to be offered. This is especially requested of those who have families, as it will save embarrassment, Mr. Pilling adds.

"Every new arrival in Glendale who takes a residence here," he continued, "is sent one of our form letters asking for an interview and some promptly reply, while others do not until they seek credit and find that it is necessary. "I think it is only fair to all concerned that any one who does not expect to pay cash to give us references in advance so they may be checked up."

To illustrate the worth of a credit association, Mr. Pilling related an incident occurring yesterday.

"I received a telegram from the Everett, Wash., association asking about a former Long Beach merchant who applied for credit there. Being personally interested on account of having held the secretarial post in the northern city, I phoned the association at Long Beach and learned that this party was 'wanted' to settle an account in Arizona. "You can readily see how the merchants' associations bring such people to time. This instance is typical of hundreds of cases coming to my knowledge and stops the losses of hundreds of dollars yearly."

Over \$200 has been saved the city in the construction of its new sheet metal shed on the rear of the city hall property, according to L. D. Fish, municipal construction engineer, who supervised the erection of the building.

The estimated cost of this shed, which is 144 feet long, 16 feet wide and open on the south side, was \$1000, by using city labor, which was paid for at its regular rate, the total expense will amount to about \$700.

The shed will be used to house vehicles of the street and public service departments.

The efficiency of Mr. Fish has been the subject of much favorable comment by the city administration.

Commander MacNider Issues Bulletin in Which He Clears Up Situation

Following are a few excerpts from a bulletin recently received by James P. McBryde, commander of the Glendale Post of the American Legion, from the national headquarters of the organization, and which National Commander Harford MacNider has requested be published in newspapers throughout the country. The purpose of the issue, which concerns the "bonus" or adjusted compensation question, is to "shed some light upon the cloud of misinformation that has been created by opponents of the bill." The statement:

"The adjusted compensation bill, which has been before Congress since March, 1920, offers five choices to the veteran of the World War: "First—Adjusted pay, at the rate of \$1 for every day of home service and \$1.25 for every day of foreign service. Maximum payment, \$500 for home service and \$625 for foreign service.

"Second—Adjusted service certificate in the form of a paid-up, 20-year endowment policy, the value of 3.38 times the amount that would be received in cash. The face value of the policy would be paid to the veteran at the end of twenty years, or if he dies in the interval, to his beneficiary. "Third—Vocational training aid of \$1.25 a day while taking an educational course. The amount thus paid is not to exceed 140 per cent the amount due in cash. "Fourth—Farm or home aid, to the extent of 140 per cent the amount due in cash. "Fifth—Land settlement.

"Those Who Are Eligible "Any man or woman who served in the armed forces of the United States at any time during April 6, 1917, and November 11, 1918, is eligible for compensation.

"The bill was introduced into the House of Representatives by Joseph W. Fordney of Michigan, and into the Senate by Senator Porter P. Mc-

ANNEXATION FIGHT NOW UNDER WAY AT BURBANK

One Side Favors Joining With Los Angeles, Other Doesn't; San Fernando Valley

Burbank is in the throes of another annexation campaign. J. W. (Joe) Fawkes is leading a fight in the city election which promises to turn over the keys of the enterprising industrial city to Los Angeles. Other candidates for trusteeship are united on keeping Burbank from consolidating and permitting the people there to direct the future of the city. They look at Van Nuys and other communities inside of Los Angeles as examples of annexation not worthy of emulating.

AFLOAT ALL NIGHT AMID THE ICE-FLOES

For a scientific and official observation of the Ever-Warm Safety-Suit in use under conditions of the most extreme cold, the inventor spent a winter's night in the Hudson River at West Point. The purpose of this was two-fold: To observe the specific effect upon a person (wearing a Safety-Suit) remaining in ice-cold water for a long period of time; and to enable the inventor personally to study and analyze the sensations and experience of a shipwrecked person, all alone in the water in the dark of the night, under most trying conditions, in order to ascertain if he could add anything to the Safety-Suit, that would improve it.

The test revealed to the inventor that the Suit was most complete in every particular and that there was nothing that could possibly be added to further insure the safety or comfort of the wearer. The test was made under the supervision of Dr. A. W. Kenner, Major U. S. A., of the West Point Military Academy, whose report, giving the results and important details, is reproduced below.

(Copy)
This is to certify that I have on this day completed observations and inspection of a test-demonstration of the Ever-Warm Safety-Suit held in the Hudson River at West Point, N. Y., with the results as follows:
Demonstrator.....MR. OSCAR A. YOUNGREN
Clothing Worn.....ORDINARY STREET CLOTHES (SWEATER BUT NO OVERCOAT)
Physical condition of demonstrator just before entering water: NORMAL
Temperature of water.....28 degrees F. TWENTY-EIGHT DEGREES (River practically a solid field of ice)
Time required to put on suit.....TWENTY (20) SECONDS
Time of entering water.....Date, MARCH 1, 1921; Hour, 11:50 P. M.
Time of emerging from water.....Date, MARCH 2, 1921; Hour, 9:25 A. M.
Total time in water.....NINE (9) HOURS AND 35 MIN.
Condition of demonstrator after emerging at end of test period: NORMAL; PRESENTS NO SYMPTOMS RELATIVE TO EXPOSURE
Remarks—Upon examination at completion of test, demonstrator was warm and clothing dry.
To my personal knowledge demonstrator remained in water during time specified above.
In my opinion the test was a complete success.
Subscribed and sworn to before me this second day of March, 1921.

Photographs, similar to above, have been published in hundreds of newspapers and periodicals throughout the United States, Canada and Europe. Motion Picture News Weeklies have been showing West Point Ever-Warm Safety-Suit scenes in over 7000 theatres in this country; and are showing them also in Canada, South America, Great Britain, and elsewhere.

For the benefit and guidance of ocean travelers and others who are not yet fully familiar with the Ever-Warm Safety-Suit, we present herewith the names of a few of its users and friends as evidence of its merits. Among the thousands of customers already on our books are many whose names are known across two continents. As individuals, they represent the best intelligence and sanest judgment and, as organizations and business houses, the most conservative as well as the most successful of the world's buyers.

The purchase of Ever-Warm Safety-Suits by the U. S. Navy—U. S. Shipping Board—American Red Cross—Shipbuilding Corporations—Knights of Columbus—American Zionists—Yachtsmen—Naval and Marine officers and men—Wireless Operators—Aviators—Fishermen—Life Savers—means approval, and approval that came only after the severest investigations and tests. In all these fields it is being welcomed also for its great utility.

The Ever-Warm Safety-Suit already has saved many lives in actual sea disasters. It not only prevents drowning, but protects from exposure. Simple in construction, light and easy to carry, put on in less than a minute, it keeps the wearer afloat indefinitely, dry and warm. Its great buoyancy is indestructible; puncture is not fatal.

Committee on Canadian Relations
National Life Preserver Co.,

New York City, N. Y.

Gentlemen:—
I can not refrain from expressing to you the great satisfaction it was to me to have the suit during my trip going and coming across the Atlantic. I was, of course, fortunate in not being put in such circumstances as to require its actual use, but it was at least a very strong incidental protection on the voyage.
Yours very truly,
(Signed) JOHN B. KENDRICK.

COMMITTEE ON THE JUDICIARY

WASHINGTON, D. C.

I am writing to add a word of commendation to the numerous very fine endorsements that have been given the very great invention—the Life Saving Suit. I really cannot speak too highly of this invention, for it supplies one of the greatest needs of humanity.
Marconi did a very great thing for mankind, in the way of saving life, when he discovered or invented wireless telegraphy. The inventor of the Life Saving Suit did almost as great a thing for humanity as did Marconi, although wireless telegraphy appeals more powerfully to the imagination than does this other invention. I am of the opinion that every government in the world should fit out the merchant ships and naval units with these Life Saving Suits. The dictates of humanity demand it. My own prophecy is that it will be done sooner or later.

Faithfully yours,
(Signed) WALTER M. CHANDLER.

William H. Wadhams, Judge.
Gentlemen:—
It is with pleasure that I present you with the American flag which I carried in my Ever-Warm Safety-Suit.
The Ever-Warm Safety-Suit is the real life preserver for the reason that it not only keeps one up in the water, but also prevents shock from exposure. If it were possible, everyone going abroad should be equipped with one of your suits. It is the cheapest form of life insurance for an ocean trip.
Very truly yours,
(Signed) W. H. WADHAMS.

The "Stock & Bond Reporter" of New York is acknowledged by the business world to be reliable as a reporting agency. The report of March, 1922, gives this company the highest report.

It has paid \$184,175.00 Cash Dividends and shows a net gain for the fiscal year, ending Jan. 31, 1921, of \$251,303.00 and a surplus of \$127,487.00.

The last paragraph from said report reads as follows: "The Ever-Warm Safety-Suit is no doubt an invention of considerable merits and should have a very big future. The business, though comparatively new, is considered high class and well managed and looked upon as one of the good new issues in the market today."—Stock and Bond Reporter.

The company has no bonded indebtedness and no preferred stock, no treasury stock is on the market and none has been sold under par.

I have some personal stock of the company that I wish to convert into money at its par value, \$1.00 per share. I also have one of the suits for inspection in my office at 314 S. Brand Boulevard.

Yesterday the writer in company with several parties from this city, proceeded to the Lambert's Point piers in the lower harbor to witness a test of your Safety Suit. I put on one and jumped into forty-foot water, floating comfortably in same for some little time. It is only right to say that your suit entirely does away with that chill that comes from any sudden immersion. The absence of this gives confidence as well as comfort and having crossed the Atlantic some forty-four times, I can well imagine how, if one had to use it, it would mean absolute safety, instead of dependence upon whatever chance might afford to float on.

It took less than a minute to put it on and only half that time to take it off. Your Safety Suit therefore should prove invaluable, and every traveler by sea having one is much to be envied. Certainly it means he has an almost certainty of keeping his life, which under conditions usually prevalent at such times, would surely be absent. Cordially hoping the use of your good article will become general, I am
Very truly yours,

JUVENILE COURT

Ben B. Lindsey, Judge.
We are happy to state that we did not have to use our safety-suits, but the consolation of having them was more than worth the price. Considering the small expense of your safety-suits as a guarantee against exposure as well as against disaster from any possible mishaps that might come from ocean travel, I do not see how any one can afford to neglect the wise precautions. It would seem to me almost culpable in the face of the wonderful feeling of security that they afford, as well as the practical certainty of safety that they guarantee.

We found no difficulty in our practice in adjusting the suits within twenty to forty seconds and moving about in them with ease and comfort. I think I am divulging no confidence to say that every ship captain and naval officer I talked to strongly urged the use of the safety-suit. We cordially recommend them to all of our friends.
Sincerely yours,
(Signed) BEN B. LINDSEY.

Gentlemen:—
I am in receipt of your favor of the 31st ultimo regarding your Ever-Warm Safety-Suit and am enclosing herewith copy of report from Captain H. F. Long of the S. S. "Prinz Elitel Friederich" on your demonstration of same, which appears to be most favorable, and in this connection I take pleasure in stating that from my conversation with Captain Long I am of the opinion that I can heartily endorse the suit.

(Extracts from Letter of Lieut. Thomas F. Bowman, Q. M. C. U. S. A. Lieutenant Bowman's ship was sunk at 10 o'clock at night 600 miles at sea and he was thrown from his bunk by the shock.)

* * * I felt around in the dark for my Ever-Warm Safety-Suit, found it, got it on in a few seconds and started for the deck. Upon reaching the deck I had to wade through about three feet of water to the lifeboat station, located on the next deck above, only to find no boats there; so I slid down the rope ladder and on reaching the water swam away from the ship, very comfortable in my safety-suit. I then heard a second explosion, after which the ship sank. I drifted out alone all night and until 6:40 the next morning, when a French destroyer appeared and I was picked up dry, warm and in good condition. I made my rescuer, the captain of the French destroyer, a present of my life-saving suit for his good work in searching for survivors from the lost ship and he seemed to appreciate my gift greatly.

I feel that I owe my life to the Ever-Warm Safety-Suit and I will certainly never make a water journey without this wonderful suit if it is within my power to have one. You have my permission to show this letter to anyone who doubts the merits of your wonderful suit. Yours very truly,
(Signed) LIEUT. THOS. F. BOWMAN.

(Steward E. R. Leak was on the S. S. Aurania when she was sunk near the English coast. Following are extracts from his letter:)

* * * We all realized that the ship was doomed, as she began to list heavily to starboard, and there was much excitement. My duties were to see every passenger safely in the lifeboats and give all assistance possible. It was impossible to launch the port lifeboats, owing to the list, but the starboard boats were finally launched and every one accounted for—when I started for my life suit, which I had kept in a convenient place on deck. I slipped the suit on in a very few seconds and as the boats had all been lowered, there was nothing left for me to do but to jump, a distance of some thirty feet. I had never tried the suit on before and I was greatly surprised at the ease with which I rode the sea—which was running high and very choppy.

I made my way toward a lifeboat and was soon picked up. Several persons were drowned in one of the lifeboats or washed overboard by the motion of the sea, and several boats had become so waterlogged that passengers were wet and miserable. We were all picked up by a trawler some hours later—and as no quarters were available I slept and lived in my suit for two days and nights, in order to keep warm. There were several others of your suits on board and I have since recommended them to all of my friends, many of whom have already bought Ever-Warm Safety-Suits.

Yours very truly,
(Signed) E. R. LEAK.

COMMENT THAT'S ALL

Dreaming of a Metropolis
Borough System Possible
Southern Glendale Speaks
Action Needed on Bonus

By Gil A. Cowan

METROPOLITAN areas! That's a funny subject to discuss in Glendale at this early date, yet, without the most of us knowing it, Glendale is fast becoming a metropolis.

From its 2500 souls in 1910, it stands today close to the 28,000 mark—more than 1000 per cent increase in a little more than eleven years!

The startling rapidity with which Glendale is growing gives rise to apprehensive thoughts on the part of many. Actually, some people who bought homes here in the heyday of pioneers now are selling out and moving to Tujunga. They are afraid of a city.

And in Tujunga, which has been the retreat for health seekers and others who would get away from the roaring city, the good people there now find themselves confronted with incorporation and municipal government.

Eagle Rock has emerged from the crossroads stage and is shooting ahead with lightning-like rapidity in the matter of population, building and business. Burbank, too, has divested itself of country clothes and blossoms forth today as one of southern California's leading industrial centers.

There is a nutshell you have the situation as it exists in this vicinity. Evolution ever provides new problems and each of these practically contiguous communities is finding more of them each day. They look to one another, struggle against the fate of Jonah, and live in hope that some leadership will be found.

Now, only as a suggestion—a passing thought—would it not be possible for Glendale to pave the way to stand as a beacon light on the western coast, by forming a metropolitan area such as Greater New York now is on a much magnified scale?

The borough system of government might work admirably in the case of Burbank, Glendale, Eagle Rock, Tujunga and including La Crescenta, La Canada, Montrose and all that is left out of Los Angeles which would prefer municipal to county government.

Greater Glendale, with Burbank as its Brooklyn, Eagle Rock its Yonkers and so on—what a dream to be accomplished. Each would retain the civic identity which has made them what they are. Each would have its duly-elected representatives serving on a common council and electing a board of commissioners who would serve all alike.

There is no limit to discussion along this line of thought. Radical as it may seem, there are possibilities worthy of more than passing consideration. It is the purpose of this column to bestir thought, to comment on conditions as they have been, as they are, and as they may be.

All eyes turn toward southern Glendale on Tuesdays, when the Glendale gateway business review page is published. Whether you live in that section of the city or not, there is something of interest in the announcements and news items found on that particular portion of the paper.

The review of activities in the old Tropic district along the great San Fernando boulevard has taken months of effort on the part of the Glendale Evening News. It is an achievement of ambition, the result of steadfast development and the culmination of co-operative effort.

"Now is the time for all good men to come to the aid of their country." How many million times that line has been written by student typists no one knows and no one cares.

But every mother's son of us who is paying income tax today appreciates the full meaning of the phrase. It would be much more pleasurable, however, to pay over a little more, were the bonus assured the former service men.

Some sort of compensation certainly is due—and this isn't spoken with the idea of personal profit, either, although I was only a volunteer. Truly, to read extracts from the editorials in financial papers of the east one wonders what kind of lepers we members of the American Legion may be. Somebody once said, "Consider the source."

Buddie, we who fought together, still hang together, but let us hang together, or we will hang separately, in seeing that every buddie gets what's coming to him from congress.

Join the American Legion! It is leading the fight.

THREE EVILS ARE NAMED

DETROIT—Liquor, the red-light district and gambling are the three evils endangering Detroit homes and threatening to ruin the young men and women of this city, the Rev. H. C. Gleiss, general superintendent of the Detroit Baptist union, told members of the Federation of Women's clubs in urging them to help in arousing public sentiment and in giving every support to the police and federal officers.

If one half the world doesn't know how the other half lives, it ought to be informed that the process is the simple one of not paying its bills.

AT GLENDAL E SANITARIUM

W. B. Mossett of 700 West Doran street was operated upon this morning at the Glendale Sanitarium Hospital.

A minor operation was performed this morning at the hospital upon Mrs. M. L. Carter of 163 North Bailey street, Los Angeles.

Tommy—"Pop, what is diplomacy?"

Tommy's Pop—"Diplomacy, my son, is the art of seeming to be interested in other people's troubles."

SAFE IN LARGE SAFE

STERLING, Ill.—When a restaurant was raided here, four waiters who are alleged to have been gambling, hid in the large safe and swung the door shut. This was Saturday night and Sunday morning their cries were heard. Holes were bored in the steel door to admit air and when rescued Monday John Peas and James Pateles were unconscious.

Even the fellow who was born fired will go flat unless he is pumped up occasionally.

LEADER OF LEGION GIVES FACTS ON BONUS FIGHT

Commander MacNider Issues Bulletin in Which He Clears Up Situation

(Continued from Page 1)
Cumber of North Dakota. It is an adaptation of the bill drafted by Legion representatives at a conference in Washington in March, 1920. The aim of the Legion conferees was to make the bill broad enough to give every man the kind of compensation he could use; also to stress other options besides cash, so that the payment of compensation to a man was simply because he was unable to avail himself of one of the four more productive options.

"This is the bill the American Legion has been backing, but the idea of compensations for veterans of the late war did not originate with the Legion. The Legion was not incorporated until September 16, 1919, at its first national convention held November 10, 11 and 12 of that year, and by that time fifty-five bills were already pending in the house, designed to compensate ex-service men for the economic handicap they had suffered as a result of the service they had rendered their country.

"When Congress reconvened in September, 1921, hearings were begun in the House and Senate, that continued into 1922. Principal attention was paid to the means of raising the money to pay compensation. The Legion has refused to advise Congress how this should be done, believing it is the duty and province of Congress to determine how this valid claim should be paid.

"The Legion has also consistently held to the position that the word 'bonus' is a misnomer for the bill; that adjusted compensation is something due ex-service men, not as a gratuity for military services rendered, but as an approximate adjustment of the economic losses he sustained by reason of that service. The bill aims to give the soldier, who offered his life with his services, a compensation that will more nearly approach that of the laborer who remained at home, secure from danger, and whose compensation was increased from 200 to 300 per cent and, measured by the amount of labor actually performed, far beyond these figures.

Allies Give Recognition
"Our late Allies recognized the justice of this claim for compensation. Australia, that paid her soldiers 40 per cent more than our men received, paid all veterans from \$10 to \$15 a week until they obtained employment. Canada paid an average of \$600 extra compensation to each veteran and \$75 unemployment pay. England and France paid cash compensation. In all these cases, compensation was paid soon after the men were demobilized. There was no waiting or quibbling.

These nations owe money to the United States, a debt of approximately eleven billion dollars. Our total national debt is about thirteen billion dollars; Great Britain's, thirty-nine billion dollars; France's, forty-three billion dollars.

Mountain View Tract Proving Very Popular, Says W. H. Armstrong
W. H. Armstrong again is making great headway with the sale of Mountain View tract lots in the Laurel avenue district of Glendale, just this side of Burbank. He states:

"I am personally interested in making this tract a beauty spot and a subdivision to be proud of."

Of the many places for a home between Glendale and Burbank, between the mountains and the river, overlooking Griffith park and close to the industries, the business houses, the car lines, the San Fernando boulevard—Mountain View gives the purchaser everything to be desired. "Come out your old time and we will give you personal attention, we will get acquainted and you need not buy unless you are satisfied that our tract is a good investment," Mr. Armstrong concludes. All that is necessary is to drive out San Fernando boulevard almost to Burbank, and stop at the Mountain View tract office.

Mrs. W. H. Reynolds Loses Pet Collie From Dumb Rabies

Mrs. W. H. Reynolds of 910 Kenneth Road has had the misfortune to lose her pet collie dog as the result of a case of dumb rabies, an obscure form of the disease of rabies, and states that she would like to warn other owners of dogs from endangering themselves as she did. The dog, according to Mrs. Reynolds, became ill last Tuesday and its jaw dropped so that it could not eat or lap water, appearing to have a bone caught in its throat. Mrs. Reynolds endeavored to help the dog and put her hand in its mouth trying to find the bone, but found none. On Thursday she took it to a veterinary, who informed her that it had the dumb rabies, the ferocious rabies being the one which is more commonly known, although the symptoms are practically the same. Fortunately Mrs. Reynolds was not infected, but she stated that she felt it her duty to warn others whose dogs might show symptoms of the dumb rabies to immediately take them to a veterinary.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a Glass of Salts if Your Back Hurts or Bladder Troubles You

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of stinging, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications. Advertisement.

Southern Gateway to Glendale Weekly Business Review

Every Opportunity At Gateway Market To Get Foodstuffs

"Three in one" is the way a person would describe the Gateway Market at the corner of San Fernando Road and Brand boulevard. For, in their advertisement on this page, besides the Wilson-Bell Hardware company, C. F. Tompkins, druggist; Heal & Mentzer, real estate, and the Baldwin Shirt company, you will see that there are three places where food may be bought.

C. Caswell, who subleases the whole market room, conducts the meat market where fresh and smoked meat and fresh fish and oysters may be obtained. He has the usual Saturday specials and "quality" is his motto.

Franklin & Spafard conduct the grocery department which features a delivery that is pleasing to the patrons. Quality, cleanliness and price have already built up a remarkable trade. Personal attention is given all telephone orders.

In the bakery Lee & Nuhn are the boys who knead the dough and as they learned in the same shop, their product is the same high class. Yes, Lee's father taught Leo Nuhn the baking business a generation ago, when a dime bought 10 cents worth of goods.

Of course, there are other departments in the market, too, but upon the staff of life, the meat and the groceries, the majority of people depend. And they find these necessities close to their homes in the Southern Gateway section.

BIG SITE FOR FACTORY

The Jensen Specialty Corporation of Los Angeles has purchased five acres between San Fernando Road and the Southern Pacific tracks about half a mile east of Brand boulevard from the W. A. Heitman Realty company's branch office at 1737 South San Fernando Road.

A factory is to be erected at once for the manufacture of motor mixers for soda counters, pharmacists and chemists. It is understood that the first unit will consist of a building 80 by 200 feet in size, at least part of which will be two stories in height.

Five acres belonging to William Glassell and located on the north side of San Fernando Road east of Brand boulevard, also has been sold by the W. A. Heitman company. It is to be cut into small factory sites.

CLUSTER LIGHTS DESIRED

The possibility of having cluster lights installed on San Fernando Road between Los Feliz Road and Brand boulevard at the same time the San Fernando Road Improvement association has them put in between Pacific avenue and Los Feliz Road, is being investigated this week by T. B. Reavis, who operates a paint store at 1530 South San Fernando Road. He feels that there will be no difficulty in getting the support of the property owners if the city will furnish the electricity.

HOME GARDEN UNDER WAY

B. V. Brasher, proprietor of the South Glendale Variety store, is pretty hard hit with spring fever. The malady has taken the form of gardenitis with Mr. Brasher and he is putting in all his spare time on the home garden. Strawberries, blackberries, onions, lettuce, cabbage and everything are under way at the Brasher garden.

A. J. Thielen Builds Up Good Business And Plans Increase

A. J. Thielen of 145 East Adams avenue, Eagle Rock, conducts the sheet metal works at 1418 South San Fernando Road which formerly was known under the firm name of Thielen & Yaeger. The business has been established nine months and besides gutter, downspouts, skylights every sort of sheet metal product is made.

Mr. Thielen has been very successful in the conduct of his business and he expects to start manufacturing plumbers' flashings and other articles soon. He was in the hardware and sheet metal business in Aurora, Ill., for more than ten years with his father.

Keystone copper bearings, galvanized steel is used by Mr. Thielen for all outside work, because tests have proven that it is far superior to any other steel exposed to the weather, according to Mr. Thielen. He believes in doing the work the way it should be done.

Greater Prosperity In Southern Section Certain, Is Claimed

Watch Southern Glendale grow! The Heitman Realty agency in the Gateway Market building see big things ahead for South Brand boulevard and San Fernando Road in a business way. "We are selling property for \$100 per front foot which is sure the best money-making proposition in the city," said one member of the firm yesterday.

"We invite the owners in the vicinity to list their property with us for quick action. We keep our listing complete and hunt the bargains for prospective buyers. If you have anything for sale, or desire to buy, phone Glendale 2361-W for Mr. Heal or Mr. Mentzer," he added.

MRS. J. C. SATOW IS BACK

Mrs. J. C. Satow, who steers the affairs of the Satow Plumbing shop at 1513 1/2 San Fernando while J. C. is out overseeing the installation of sanitary plumbing, has been ill for the past week, but is now back on the job. Mrs. Satow's father, F. C. Heurman, of Sawtelle, is seriously ill. Mr. Heurman is 76 years of age and suffered an injury some six weeks ago. Although slight at the time, the injury has developed seriously.

VIEW OF SNOW PLEASES

"The prettiest thing we have seen since we hit California!" was George B. Karr's comment yesterday upon the view of the snow capped mountain range from Topanga Canyon, which he visited Sunday with his family. Mr. Karr resides at 750 North Louise street and manages the Baldwin Shirt factory at 1725 South Brand boulevard.

CAN'T KEEP OUT OF CITY

T. M. Edwards, who sold out the Glendale Grill at 1413 South San Fernando Road not long ago, was a visitor in southern Glendale yesterday. He reported that the home site which he acquired in Burbank last October is now in Glendale through annexation. It is located at 23 Watson Court.

Output of Russell-Pierce Furniture Co. To Treble, Is Plan

The Russell-Pierce Furniture Manufacturing company has just completed a \$1000 addition giving them 1600 additional feet of floor space for their big local industry and more new machinery will be installed to treble the output.

Seventy feet of display windows on San Fernando road have been effectively put to use recently to attract attention of passersby and recently several hotels and apartments have been fitted up by this firm, individual orders running in some instances from \$6000 to \$10,000.

Fred Morgan, the superintendent of the millroom is the grandson of Berk of the famous Berk & Gray firm of furniture manufacturers and he is considered an expert in his line.

TELLS ABOUT FISK TIRES

Agency for Fisk tires has been established by G. H. McLean, who recently reopened the Triangle Garage at 1526 South San Fernando road. "There are no better tires," remarked Mr. McLean. "We expect to have a complete line including four varieties for the Ford. Among them will be a red top extra ply fabric, a six ply tire, the regular 1922 model non-skid tire and a special model known as the Premier." Mr. McLean called attention to the fact that the Fisk factory is now making a tire under a different process than formerly.

A. F. BARRETT GIVES TIP

"If the motorist keeps in mind a few simple facts about the lubrication of his motor, he can escape many a repair bill," remarked A. F. Barrett, owner of the Triangle Service Station at 1700 South San Fernando Road, yesterday. "The automobile engine gets hot. You can't get any speed or power out of a cold motor. But heat is a foe of oil. Heat thins oil and tends to destroy its lubricating qualities. Oil may be classified under two headings: Paraffin base oil and asphalt base oil. The first resists heat much better than the latter."

RED FEATHER MATERIALS

H. W. Brittain and L. V. Butler are soon to open the Red Feather Materials company at 3409 Glendale boulevard. This new concern will carry a full line of building materials. Both these men are experienced in the building materials business and should prove of value to their patrons.

WINDOW DISPLAY FEATURE

This is balloon week at the toy and electric store of C. L. Brenkman, 1524 South San Fernando Road. A window display consisting of a number of toy balloons in a home-made cage of string and blown hither and thither by draught from electric fans is causing considerable attention in the neighborhood.

LOW PRICES IS HIS SLOGAN

"We don't give anything away on Saturday," said Harry L. Chapman in his store at 1528 South San Fernando Road yesterday. "But we do have low prices every day in the week."

Allan N. Fairchild Tells How His Car Climbed Mt. Wilson

"Any car that will do what this car did on a demonstration is pretty good!" exclaimed Allan N. Fairchild of 1036 South Boynton street, who recently purchased a new Chalmers through Lyman P. Clark of the Glendale Motor Car company, 246 South Brand boulevard.

According to Mr. Fairchild, his car went up Mount Wilson from base to summit in forty-two minutes and retained a cool radiator all the way. Besides its performance record Mr. Fairchild is also quite proud of the appearance of his new car which has black disc wheels encircling a hub of bright blue.

The local branch of the W. A. Heitman company at 1737 South San Fernando Road feels that it is going to get a lot of advertising out of the new car.

DENIES 'FIRST' MORTGAGE'

PARIS, March 14.—It was officially stated that the allied powers "do not regard the Versailles treaty as giving them a first mortgage on German indemnity payments and priority over American claims." The only question, it was said, was the method of payment. "Nobody dreams of collecting the entire 132,000,000,000 gold marks before paying America for the cost of keeping her army of occupation on the Rhine," the statement added.

MODERN WOMAN IS THEME OF PLAY CALLED GLASSIC

'Hail the Woman' Is Dramatic
Masterpiece Being Featured
at T. D. & L. Today

"Hail the Woman," Thomas H. Ince's intensely dramatic masterpiece, which comes to the T. D. & L. theatre today, is a powerful production of universal appeal, built on the theme of modern American womanhood. It is from the master pen of C. Gardner Sullivan, and was directed by John Griffith Wilson under the personal supervision of Thomas H. Ince.

This memorable play is a classic in motion-picture interpretation of human motives, due alike to the universality of its appeal and to vivid characterizations by Florence Vidor, Madge Bellamy, Lloyd Hughes, Theodore Roberts, Tully Marshall and others in a cast of unsurpassed brilliance and genius.

"Hail the Woman," reflects drama from the screen so poignantly real as to enthrall the most critical audience. It is an epic of noble womanhood, sounding the very depths of the drama of life.

The play passes from one tense situation to another, and has a heart appeal such as has seldom been equaled. It ranks as the greatest screen classic of the decade, many declare.

In addition to "Hail the Woman," there is also presented "The Wildness," an extraordinary scenic picture and "The Original Golfer," another of those Tony Sarg comedy-laugh provokers.

News Notes From Southern Glendale

(Continued from Page 5)

HAS WARNING FOR KICKERS

"We have more good and bad weather in twenty-four hours than any place in the world," declared W. L. Anderson yesterday at Andy's Place, 1415 South San Fernando Road. "Like the climate? Sure! I wouldn't have stayed here thirty years if I didn't. Kickers had better go back where they can get what they're used to."

SOCIAL CALL—THAT'S ALL

"I forgot to take any salt along so I could get rabbits," laughed A. J. Sauer of 1420 South San Fernando Road, speaking about his "hunt" for rabbits in the hills of the back country Sunday. Mr. Sauer also failed to take a gun along. He says that he "just wanted to pay the rabbits a social visit and find out where they lived."

TWENTY CARS OF LUMBER

Three hundred and fifty thousand feet of lumber were received last week by the Bentley-Schoeneman Lumber company, 460 West Los Feliz Road. George Bentley stated yesterday that the firm did not expect that it would last much longer than a week. It arrived on twenty cars.

ENJOY OUTING IN SNOW

G. Wiley Cox and family of 1531 South Central avenue had a pleasant time in the snow along the Ridge route Sunday on their way back to LaBrea. Mr. Cox manages the South Glendale Dry Goods store at 1510 South San Fernando Road.

High School Pupils Show Much Interest In Program of Plays

Sketches from the three one-act plays to be given in the high school auditorium Thursday and Friday night were enthusiastically received yesterday by the students at an assembly.

"Neighbors" is the first on the program. This is a very human character play by Zona Gale. The scenes are laid in a country village. Miss Mona C. Gardner, dramatic coach, declared that every line is full of humor.

Another of the plays is "Hearts-to-Mend" by Harry Overstreet. Miss Gardner consists this charming fantasy very much worth while. "Sham," a social satire by Frank G. Tompkins, is the third of the group. This teaches a lesson in a humorous attractive manner.

Tickets were put on sale at the high school yesterday by John Richardson. Hopes are high for a large attendance. The proceeds will be used for expenses to be incurred in sending representatives of Glendale Union high school to Berkeley to take part in a recitation contest from Shakespeare.

A. A. Jackson Gets Genuine Navajo Rugs

A. A. Jackson has just received a shipment of genuine Navajo rugs from his friend, Dr. Heller at Gallup, N. M., and thereby hangs a tale.

Some years ago Mr. Jackson found himself in position to render a service to Dr. Heller. This he did and the two became warm friends. At that time Mr. Jackson expressed his great admiration for the rugs that the Indians were making.

Recently Mr. Jackson received word from Dr. Heller that an assortment was being forwarded to him from which he was to make selections for his own use with the compliments of the doctor.

Those that remained, the letter added, might be sold to Mr. Jackson's friends or returned. He immediately took advantage of the opportunity offered and decided to pass the good thing along to his patrons, so has placed the rugs on sale in his store at 120 East Broadway.

SATIRE ON MODERN DIVORCE TO HAVE PREMIER TONIGHT

'The True Story' Will Be Told
at Glendale Theatre by
Celebrated Players

Satirizing modern divorce, "The True Story," which will be given its premier at the Glendale Theatre tonight through the professional courtesy of the nationally celebrated actress, Florence Roberts and Fredrik Vogeding, the famous Dutch actor who recently appeared here, will appeal to every home-loving resident of Glendale.

Lea D. Freeman has put more deep thought dealing with the present-day evils of domestic difficulties into the clever lines of this short entertainment, it is said, than anything yet presented the public from the stage. "The True Story" not alone boasts a moral, but develops a line of argument that only a Roberts, combined with Vogeding, can put across in a smiling, smashing fashion.

He's Rough and Ready
On the screen will be seen William Russell in "Desert Blossoms," a rough and ready sweetheart tale that will appeal to the romantic of all ages. It has the western tang, the virility and fragrance that the title indicates and as ever its hero is "Smilin' Bill."

Harold Lloyd provides a rehabilitated dash of comedy in "His Royal Slynness," something that never grows old, and features all his films. "Stage Struck" is the Snub Pollard offering in the way of fun and no end of slap stick enters into the two reels of real laughs. Undoubtedly you will see several local scenes.

A Personal Statement

In Regard to

MOUNTAIN VIEW TRACT

We wish to announce to you that we are again managing and selling the lots at the Mountain View Tract in the Laurel Avenue District, and will be pleased to show you the property, what we have already accomplished, and what we intend to do. If "you are from Missouri," perhaps you will have to wait awhile longer until we show you, but if you do, I will assure you that you will have to pay for it, for when we have shown you what we are going to do, the price will be quite a large per cent higher, so why not buy now and get the benefit of the improvements? If you buy from us you can rest assured you will not be surrounded by a lot of temporary homes. Not but what the people that build the temporary homes are just as good in every way as you and I, but, from an investment standpoint or place to live, we all know that a restricted district is the place to invest. Our restrictions are not high (\$2500.00) but I am personally interested in making this tract a beauty spot and a subdivision to be proud of. Come out any old time and we will give you our personal attention, and we will get acquainted and will tell you not to buy unless you are satisfied that it is a good investment.

Yours for business and pleasure,
W. H. ARMSTRONG, Manager.
